Spa-Valous™ It's not just a candle... It's a BODY CANDLE!

The body lotion that Masquerades as a CANDLE!

Experience the Spa-Valous™ Body

ADDICTION! GOING GREEN ROCKS! G

What are massage candles? If you're not familiar with them, you're not alone. First appearing on the market this year (August 2008), they are just now starting to gain a market presence in salons and spas, as unique corporate gifts as well as that exclusive gift for any man or woman.

Whereas candles were once simply a functional way to light the dark, candles are now most commonly purchased to scent homes or to add a romantic or relaxing ambiance.

Massage candles are a new variety of candle serving several simultaneous functions. While they light a room, provide a delightful ambiance, and scent the immediate area with subtle fragrance, massage candles also contain cosmetic **ingredients such as Soy wax, Shea butter, Coconut Oil, Marula Oil** etc. that make them an excellent body moisturizer offering

anti-aging benefits and massage oil alternative.

Because of their unique ingredients, a true massage candle will melt at just over body temperature. Much like a hot bath, they are comfortably warm, but not hot. Purchase a Spa-Valous™ Premium Aromatic Eco-friendly Body Candle from any beauty salon or spa countrywide. The Spa-Valous™ is a "green" candle.

The following list identifies a number of reasons why soy candles are preferable to paraffin wax candles:

- No carcinogens are produced from burning soy candles.
- Soy wax is non-toxic.
- Little or no soot is produced from burning soy candles.
- Soy candles will not discolour your walls or furniture with petroleum by products.
- Soy wax is a renewable resource; petroleum is limited.
- Soy wax is biodegradable.
- Soy wax is water-soluble (no more messy cleanups).
- Burning soy candles helps support the farmer.
- Soy wax candles hold colour and scent better than paraffin.
- Soy candles burn 30% to 50% longer than paraffin.
- Soy wax candles are the "healthy" way to illuminate your life.
- All natural organic soy candles

Herpotherm® @ R 495.99

We are pleased to announce that we have been appointed as agents for the HerpoTherm electronic device.

- In summary of the **device it prevents cold sores from occurring**. This device is the size of a lipstick that is meant to be used as soon as the tingling sensation is felt by the client.
- It operates as a 4 second burning sensation at 51° Celsius that destroys the proteins of the cold sore.
- I would like to add that I have tried it as I suffer from cold sores regularly and it does work.
- We are launching this product this month, where the opening orders are a min of 2 and you will receive marketing material and shelf talkers with the product.
- The company is prepared to send agents stock as they are running an advertising campaign where clients (public) will collect or you can deliver to the clients.
- There is quite a large investment in all media types for the product and I would encourage the agents to sell the product as it the most embarrassing feeling to have cold sores on the face.

Herpotherm™
The new electronic way to prevent cold sores and fever blisters.

- Dermatologically tested.
- Chemical free thermal treatment.
- Manufactured in Germany.
- Suitable for adults and children.
- Small and compact lipstick form.

“As an actress I cannot afford to have cold sores”
Yvonne Woelke

NEW RETAIL PRODUCT

Herpotherm® is a medical device which is capable of preventing the development of lip herpes when used at the appropriate time. No uncomfortable, unattractive blisters and no sensation of sores will occur in the lip area. The instrument in lipstick form is small and compact and can be easily carried around for handy use any time.

Everyone, regardless of gender or age, can use the Herpotherm®. For reasons of hygiene, the Herpotherm® should always be used by only one individual. With the Herpotherm®, symptoms of the herpes infection are effectively combated.
